

My current responsibilities include the design and development of work that is highly confidential, competitive, and proprietary, and as such, is limited in the context of an online portfolio. Please contact me for information on work and to view additional samples and case studies.

A logo is the visual key to recognition that serves as a fingerprint to convey the culture, behavior and values of a company, product, program or person. As such, it is the visual expression that articulates, in a simple form, the promise that a company, product, program or person makes to its customers.
